Exceptions for high profile or emergency conditions will be handled on a case-by-case basis.

7. CHANGING/CANCELING A FLIGHT INSPECTION REQUEST. The requesting office should promptly notify the appropriate AVN operations office of delay, deferment, or cancellation of a previously requested inspection so unnecessary expense and use of resources can be avoided.

8. INFORMATION UPDATE. Any deficiencies found, clarifications needed, or suggested improvements regarding the contents of this order should be noted on FAA Form 1320-19, Directive Feedback Information, and mailed to the originator of the order. If an interpretation is needed, call the originating office for guidance; however, you should also complete and mail FAA Form 1320-19 as a follow-up to the verbal conversation.
